AR mode doesn't work using Xcode simulator. You need to run the app on an ios 12.1 device. Tested on my iPhone X running ios 12.1.

App Name: AR Décor
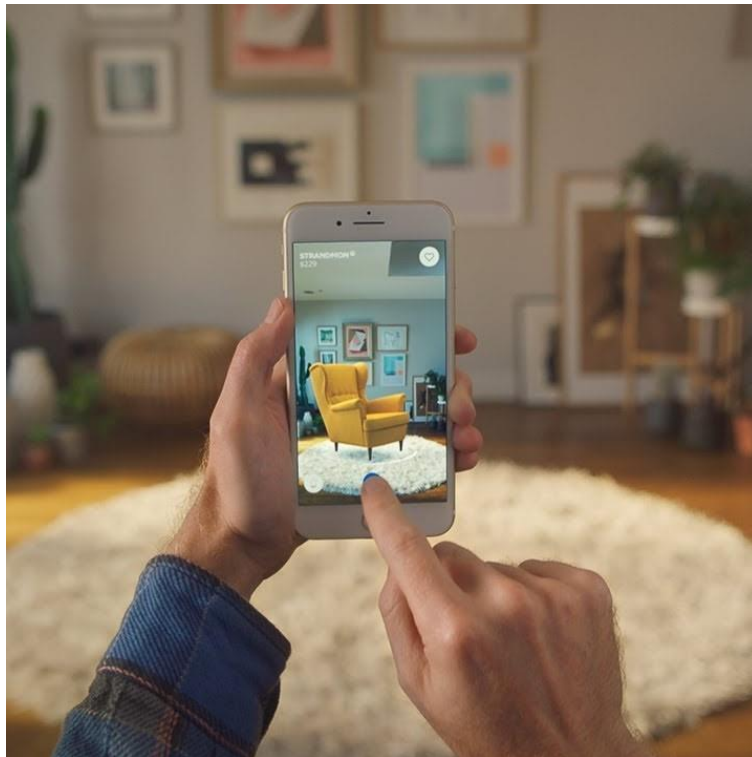

Created by: U Keong Cheong

Who will review my code: Davis Hoang

Who's code I will review: Davis Hoang

Must-have features: be able to view 3D models that comes with the app in AR mode(Live View).

Nice-to-have features: be able to import any 3D models(in .usdz format) to the app, and view them in AR mode.

Wire-frame:

Estimated work:

- view 3D models that comes with the app in AR mode (Live View). ~5 to 10 hours
- import any 3D models (in .usdz format) to the app, and view them in AR mode. ~5 to 10 hours
